

## Solinair Part-145 AMO: Precision Maintenance for Reliable Performance

»Your Aircraft, Our Expertise: Certified Maintenance Without Compromise«

At Solinair, this isn't just a motto—it's the standard we live by.

As a fully certified **EASA Part-145 Approved Maintenance Organisation (AMO)**, Solinair offers more than maintenance. We deliver peace of mind. Strategically based at Ljubljana International Airport (LJU), in the heart of Europe, we serve a global clientele with unwavering dedication to safety, precision, and performance.

With over 30 years of experience in aviation and an operator's mindset, Solinair understands the operational pressures our customers face. That's why we've built a maintenance culture that puts **reliability on first place**. Our focus? Getting you airborne again—quickly, safely, and cost-effectively.

Our Part-145 approvals from EASA, Bermuda, Guernsey, and the Russian Federation allow us to support a wide variety of aircraft types, including the Airbus A300-600 and A320 family, Boeing 737 Classic and NG, ATR 42/72, Bombardier CRJ series, and Embraer ERJ jets. From full base maintenance at our Ljubljana headquarters to responsive line support in Istanbul, Leipzig, and Prishtina, we are built for agility and excellence.

We're proud to serve respected operators such as Lufthansa CityLine, Finnair, Helvetic Airways, Aegean/Olympic, HOP! and Regional One—companies that demand nothing less than top-tier MRO service. At Solinair, we meet that standard by combining highly skilled engineers, modern facilities, and personalized service with a deep-rooted commitment to quality and compliance.

"Your Fleet. Our Mission." That's our promise to every customer.

As we look to the future—with a new narrow-body hangar in development—we're not just expanding capacity; we're expanding our ability to serve you better. With every inspection, every repair, and every aircraft returned to service, we uphold a simple but powerful belief:

**Safety is sacred. Quality is non-negotiable. And your trust is earned every day.**

Choose Solinair Part-145 AMO—and discover what it means to have a true maintenance partner who shares your standards, your urgency, and your vision for excellence.

Please do not hesitate to contact us for tailored offer!

Yours Sincerely,

CEO / Accountable Manager  
Mr. Matej Tomšič
